Radio Show on How to Handle Your Money

There are two parts to our personalities: the phony you — the ego
And the real you your soul

We catch egos like we catch the common cold — from each other
Our parents, friends and TV and movie personages.

- The soul is the secret you, you know inside of you
- My book *Unraveling your past* which can be found on our web site of the same name Unravelingyourpast.com helps you to get rid of the ego so that you can be yourself your soul self.

The ego speaks and acts on automatic pilot and then your soul has to explain it to the principal, the teacher, your parent, the police the judge.

The ego does the crime and the soul does the time.

So how does the ego interfere with your money.

The above were the questions asked in the radio program.

New book: *Unraveling Your Past to Get Into the Present* is available for anyone who wishes to help by contributing it to the people in prison and to after school programs. *Unraveling Your Past to Get Into the Present* is a book that helps the reader grow up to be the soul, the real you who is in charge of your life rather than an ego that is out of control. The ego commits the crime and the soul does the time.

The children know what I am talking about because the children see the phony ego in the parents and complain about it, unfortunately the child grows up to become a phony ego himself or herself.

The soul of the child is never talked to or loved and the ego just takes over the life of the person. This must change or we will continue to have prisoners and children who are out of control and parents who are phony egos raising children with out of control egos.

The sensitive part of you is your soul, the real you. This book teaches the reader to be the soul, be real, be true, be who you were born to be. I hope that

Your ego spends it all and your soul saves and decides how to spend money.

- Decide today who you want to be the ego or your soul.

The money ego has many heads greed, jealousy, desire and graft not to mention competition.

- When you see something you really must buy, steal or you want it so badly remember to be your soul by saying the three W's.
- Who What Where

Who am I? I am my soul.

What am I? I am my soul.

Where am I? Stamp your feet and say, "I am on earth!"

The ego lives in La La Land. It has no clue. No connection with reality, it lives in a made-up world. The soul lives on earth. The soul lives in reality. You may still decide to buy the car, house or shoes but your soul will have made the decision.

Movies: Harry Potter

The ego has so many faces, some of them are little white lies and some of them are outright lies that are so egregious that the worst criminal would have had to have committed it. The ego, whether it is relatively good or evil is still a lie.

Harry Potter represents the soul and the ego is what he is fighting. How the ego manifests itself is shown graphically in the new Harry Potter movie. Harry Potter is teaching our children and adults especially those of us who come from backgrounds of being abused that anyone can stand up for truth — even Harry Potter who is a boy who looks rather ordinary.

Children go to school and adults work in jobs where they have to fight these same battles with the egos of other people who wish them to fail, to fall, to be hurt or maimed or otherwise made ill.

someone reading this will look at our website www.unravelingyourpast.com and decide to purchase a block of books to give away to the prisons or children in high schools. We need a change and the only way we can have a change in our society is one person at a time: that means that we each have to change ourselves. Unraveling Your Past to Get Into the Present does just that: it helps the reader rethink his her life and make the change. Being the soul is being in control — being the ego is being out of control. Harry Potter continued

Children and adults are viewing the Harry Potter movies as a way to get courage to stand up for what is right. Opponents of the Harry Potter movies and books view them as evil, teaching children evil.

Evil exists everywhere. Children need to learn how to combat evil. The Harry Potter series teaches the soul how to recognize and combat evil thereby learning to have the courage to defend the soul. The ego is not good. If a child chooses to be the ego then the choice has been made and the pathway set until the soul takes over; Harry Potter will not teach the ego any new tricks but it will teach the soul to have the courage to stand up for itself.

Harry Potter is an abused child who stands up for himself — not an easy thing to do when you have been abused.

A 14 year old girl standing with her father to buy tickets told me that her father had seen the first Harry Potter movie 100 times. I asked her if she was afraid when she saw the monsters in the film. No she laughed. I looked at her father and said that I was very afraid when I read the books but then you had to have lived it yourself to have that kind of fear. He looked at me and agreed. After having read the books and now seen the two Harry Potter films I can say that my fear is nearly gone and my courage has arrived fully grown.
